

Illustrative Diagram

Anticipated AM Peak (8am – 9am)
 2021 traffic flows
 All vehicles (inc. HGVS and cars)
 With and without WMI traffic

KEY

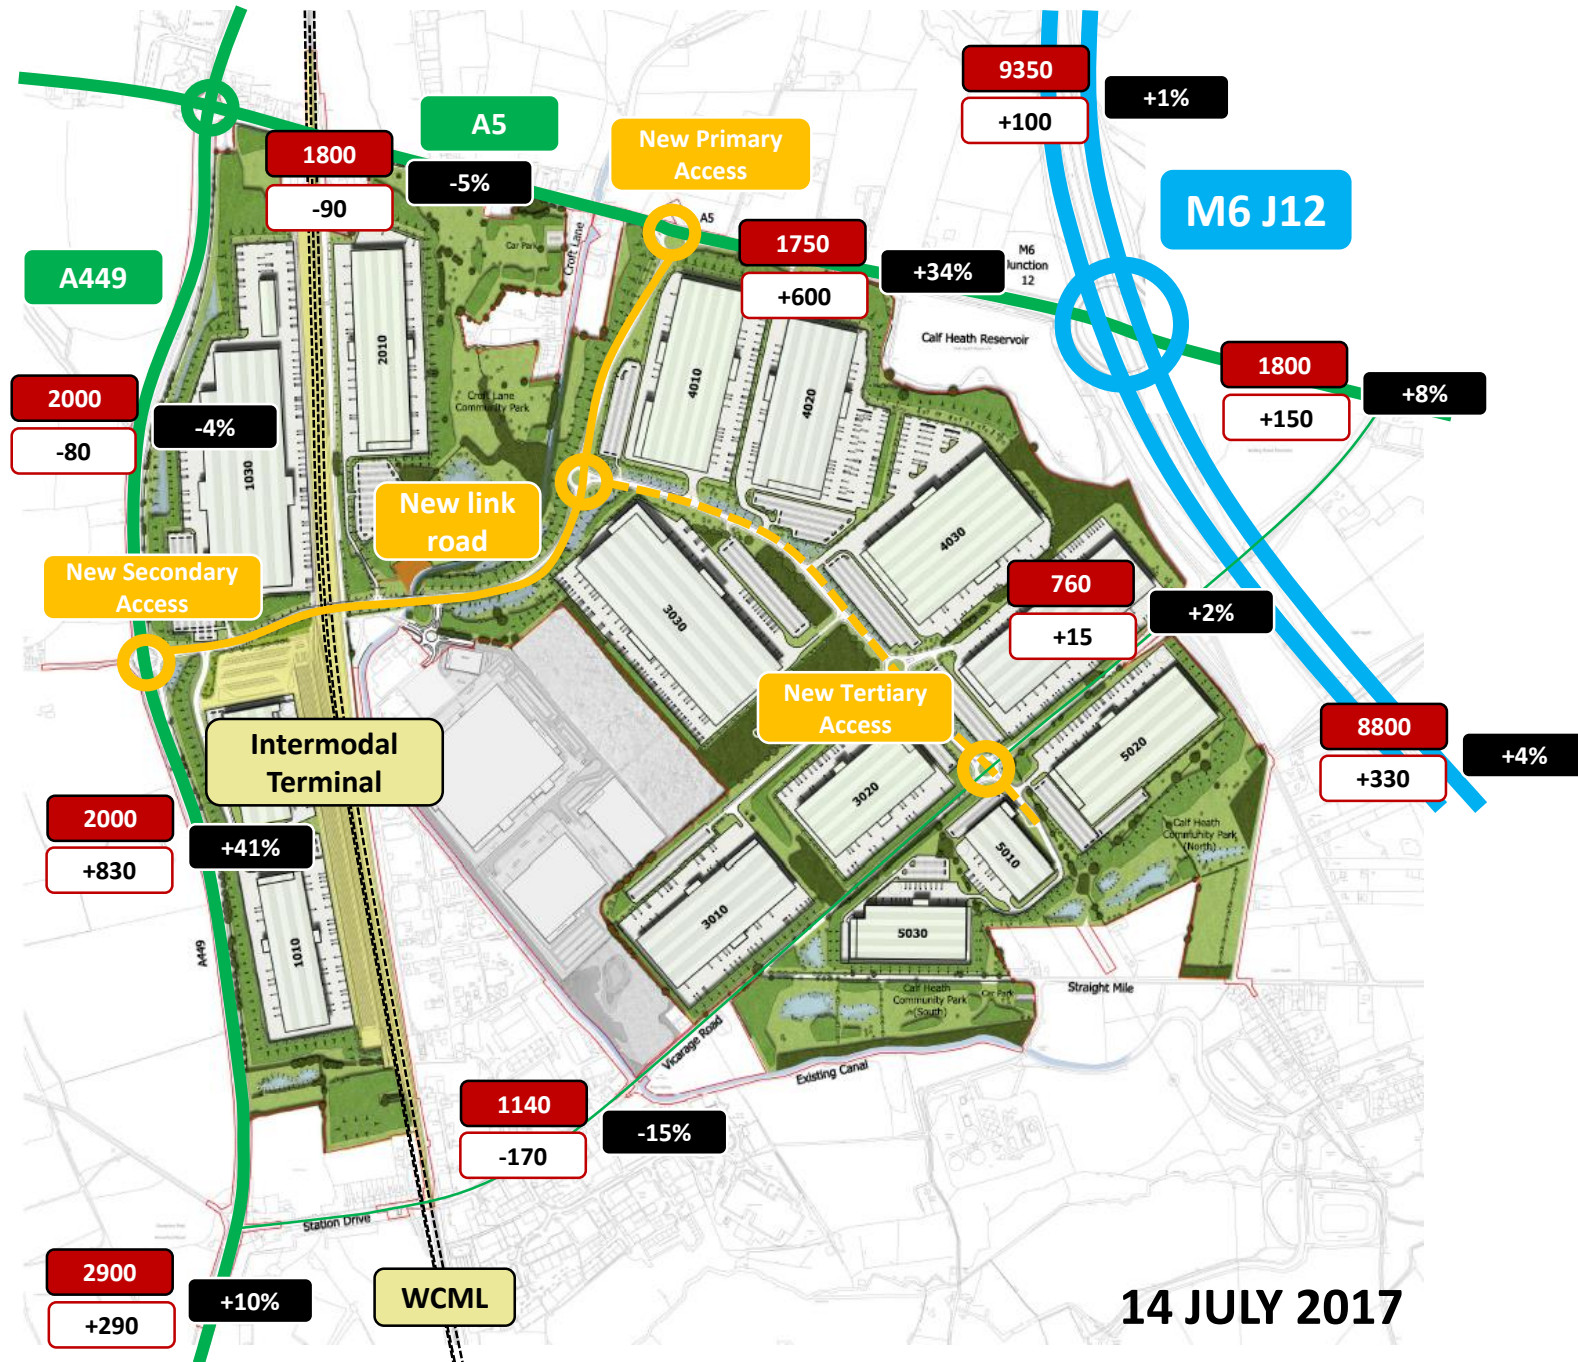

2021 traffic flows
 without WMI

0 0% % change, inc.
+0 WMI mitigation

2021 change in traffic
 with WMI, inc. mitigation

Notes:

- Extra journeys on A449 between Station Drive and Gravelly Way primarily due to transfer of vehicles from Station Drive to the link road and the Station Drive right hand turn ban, requiring a detour for local access.
- Numbers rounded for ease of use.
- HGV approx. 1/3 of traffic, but does vary.
- Numbers take account of cumulative development and traffic growth up to 2021.
