West Midlands Interchange

Merry Christmas from WMI

As we reach the last few weeks of 2025, we would like to share a huge thank you to everyone for the continued patience and support as work at the West Midlands Interchange progresses.

The construction progress taking place on site is matched with the positive impact being delivered beyond the development itself. Including the STEM education being delivered to local students to inspire the next generation, to welcoming our first occupier, Carlsberg Britvic. Important steps for both the project and the region.

As we look ahead to 2026, we remain committed to keeping you informed, and we share more information on how you can do that through our webpage subscriptions and local Facebook page.
