Thursday 2 April

Dear Resident

West Midlands Interchange – A5 Watling Street reinstatement works

I am writing to provide you with an update on our upcoming programme of highway works related to the construction of the West Midlands Interchange Development.

We will shortly be carrying out reinstatement works on A5 Watling Street between the A449/A5 Gailey Roundabout and Gailey Bridge. These works will include the removal of the temporary barrier currently in place and installation of road markings.

To ensure the safety of road users and our workforce, these works will require full overnight closures of the A5 between the A449/A5 Gailey Roundabout and M6 J12 on the following dates:

- **Monday 13 April** from 8pm to 6am Tuesday 14 April
- **Wednesday 15 April** from 8pm to 6am Thursday 16 April

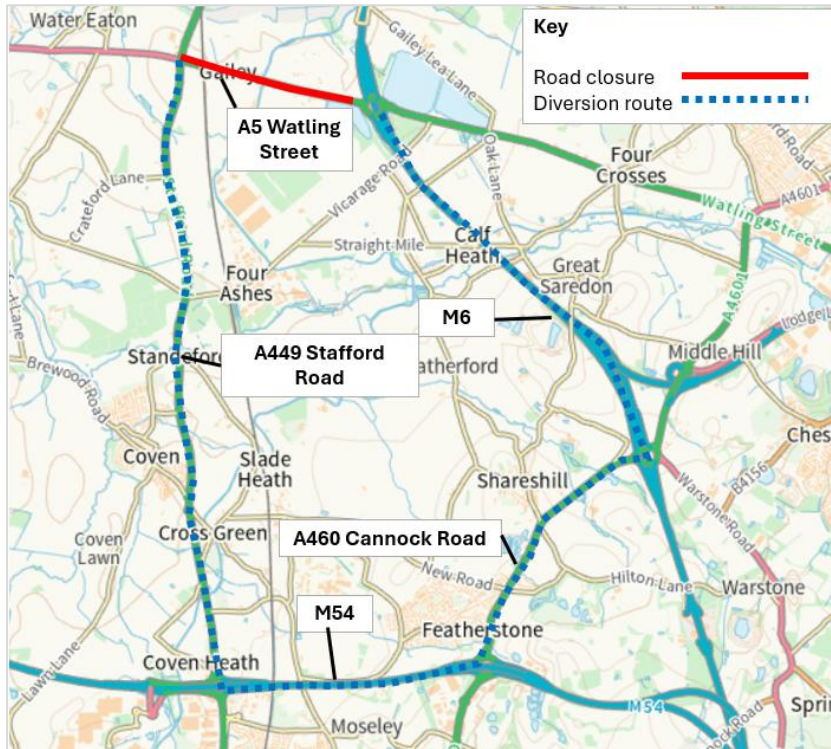

A fully signed diversion route will be in place during the closures which can be seen on the following page. Access to properties will be maintained at all times.

Following the removal of the current traffic management, the eastbound footpath will also be fully opened for use. Please note, the footpath will likely need to be closed temporarily for future phases of work, which we will communicate in advance.

The next phase of work will include temporary two-way traffic lights on the westbound carriageway from **Monday 20 April to Monday 8 May** to install street lighting ducting across the carriageway and access points. A separate communication will be shared with impacted properties.

Diversion route

Road users will be directed along the A449 Stafford Road, M54, A460 Cannock Road, and M6.

Contact us

We hope this information is helpful and we appreciate your patience while these works are carried out. If you have any questions or concerns please feel free to contact us via email contactus@communityrelations.co.uk or call 0800 377 7345. A cut off section has also been provided below with our contact details.

Yours sincerely

David Wright
