Dear Resident

West Midlands Interchange – Upcoming traffic management on Vicarage Road

I am writing to provide you with information on our upcoming programme of highway works related to the construction of the West Midlands Interchange Development.

As part of this programme, we have been constructing an access roundabout into the site on Vicarage Road and we're now ready to connect the existing carriageway to the new roundabout. This will include resurfacing and installation of white lining.

To ensure the safety of residents and our workforce, Vicarage Road will be closed overnight on the following dates:

- **Friday 3 July** from 8pm to 6am Saturday 4 July
- **Saturday 4 July** from 8pm to 6am Sunday 5 July
- **Sunday 5 July** from 8pm to 6am Monday 6 July

If unforeseen circumstances or weather conditions prevent completion of the works during these dates, the closures will take place the following weekend instead, on Friday 10 July, Saturday 11 July, and Sunday 12 July, during the same overnight hours.

A fully signed diversion route will be in place during the closures and a map of our working area and diversion route can be seen on the next page.

Following these works, the new roundabout will be open for use and traffic will be switched onto the existing permanent carriageway. Clear signage and road markings will be in place to guide road users through the new layout.

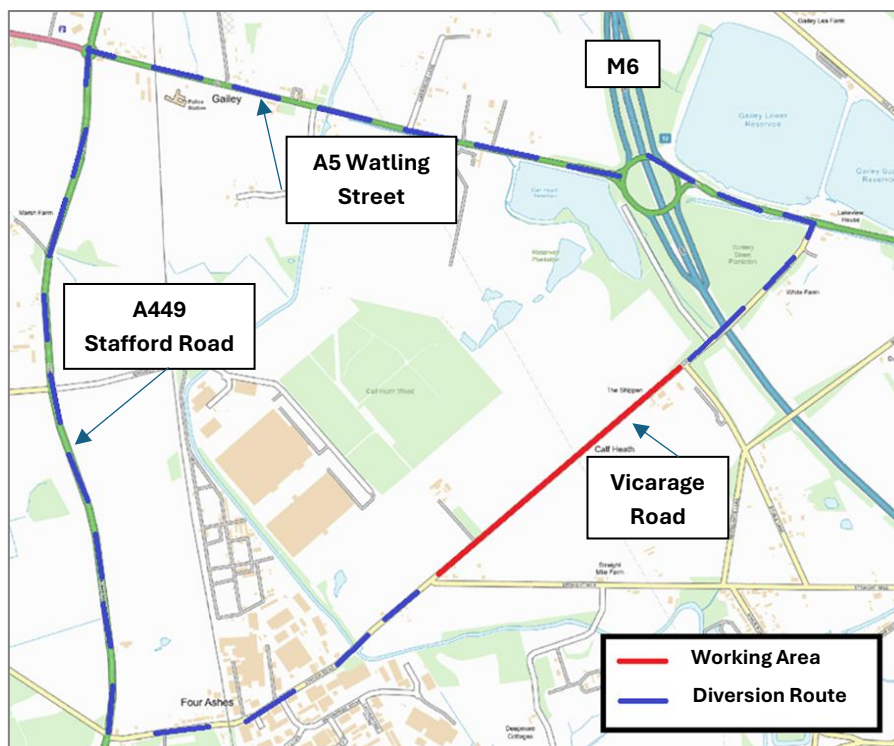

We would like to reassure you that Winvic and all involved in the project will ensure any disruption to road users and local businesses is minimised. Please be aware you may see our workforce on site up to one hour before and one hour after these times to set up and secure our equipment.

Diversion route

Road users will be directed via the A5 Watling Street and A449 Stafford Road during the closures. **Please note, due to a low bridge on Station Drive there will be no access to the Four Ashes Industrial Estate for high-sided vehicles over 3.8m during the overnight closures.**

We kindly ask businesses to rearrange any overnight deliveries requiring vehicles over 3.8m on the closure nights, as access through the closures will not be permitted.

If you would like to discuss access arrangements in more detail, please contact us.

Contact us

We hope this information is helpful. Should you have any questions or concerns please feel free to contact us via email contactus@communityrelations.co.uk or call 0800 377 7345.

Yours sincerely

David Wright
Project Manager, Winvic Construction
