Dear Resident

West Midlands Interchange - Upcoming A5 Watling Street weekend closures

We're writing to keep you updated on the next phase of construction for the new access roundabout on A5 Watling Street, as part of the West Midlands Interchange Development.

What are we doing?

We will shortly begin the next phase of works to reconstruct the A5 carriageway around the access roundabout. This will involve removing the existing road surface layers and installing new stone material and new asphalt road surfaces.

Due to the scale of the work, four weekend closures are required to complete our work safely. Full weekend closures will provide our teams with sustained access to the working areas, allowing us to complete approximately 100 metres of carriageway reconstruction each weekend.

When is the work taking place?

The A5 Watling Street will be fully closed in both directions between the A449/A5 Gailey Roundabout and M6 Junction 12 while the works are underway.

The closures will be in place from **8pm on Friday evenings until 6am on Monday mornings** on the following weekends:

- **Friday 9 October to Monday 12 October**
- **Friday 16 October to Monday 19 October**
- **Friday 23 October to Monday 26 October**
- **Friday 30 October to Monday 2 November**

From 6am on Monday 26 October, traffic will be diverted around the new access roundabout for the first time. The new route will be clearly signed to guide road users through the new road layout.

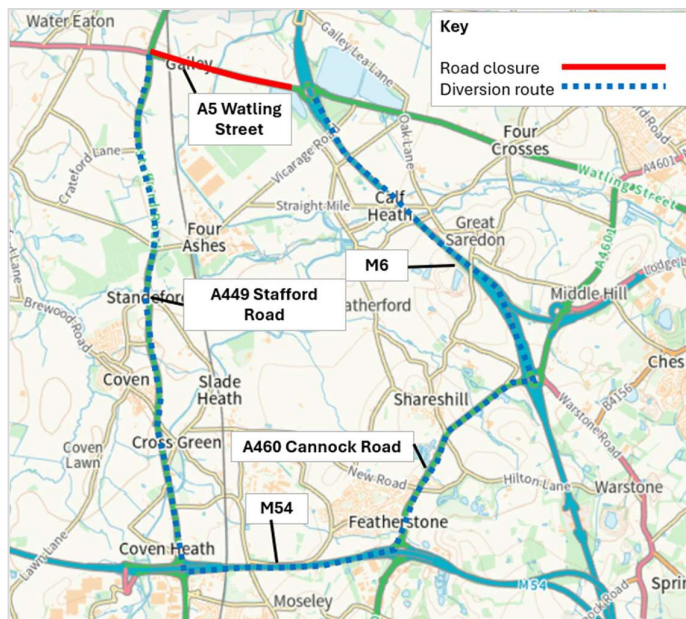

Access to properties

Access to properties within the closure will be maintained throughout the works. However, access routes will be managed from either side of our working area:

- **Harrisons Lane and properties east of Harrisons Lane:** Please approach via M6 Junction 12.
- **Access to properties west of Gailey Marina:** Please approach via the A449/A5 Gailey Roundabout.

Diversion route

A fully signed diversion route will be in place during these closures which can be seen below. Road users will be directed along the A449 Stafford Road, M54, A460 Cannock Road, and M6 to rejoin the A5 Watling Street.

Contact us

We hope this information is helpful and we apologise for any disturbance these works may cause. Should you have any questions or concerns please feel free to contact us via email contactus@communityrelations.co.uk or call 0800 377 7345.

Yours sincerely

David Wright

Project Manager, Winvic Construction
